## PROTECTION

We protect our customers in the use of our products and assure them of their superior quality, practical construction, artistic design, new metal, and in all ways satisfying the requirements of the user, and cheapest in the end. We are constantly securing patents on our new and original articles and are protecting them against all copyists.

Buy from the Originators

## DESIGN PATENTS

Our many Design Patents on Fixtures and Fittings include their particular ornamentation and detail both in general appearance and in special features, also their characteristics in outline and shape. Any similar designs that may be mistaken "by the casual observer" to be the same things, or that appeal to the artistic emotions as the same, come under the law as colorable imitations and unfair substitutes.

WE HAVE LICENSED NO PERSONS OR FIRMS TO MANUFACTURE ANY OF OUR DESIGNS OR ANYTHING SIMILAR TO THEM FOR THE PURPOSE OF SELLING TO THE TRADE.

We are continually originating new designs and devices for the Electrical Trade which we are patenting for the protection of our trade and against unfair copyists.

## WARNING

United States Patent Law provides a penalty of \$250 for making, selling or OFFERING FOR SALE an infringing article, as well as court costs, damages shown, and an injunction covering same. Several cases have already been tried, injunctions handed down and penalties collected against the unlawful making of infringements.

## MECHANICAL PATENTS

Our Patents and Patents Pending on any Device are written to cover all important Mechanical features of that device. In a mechanical patent the design and artistic features are not considered; the mechanical elements alone are involved. The claims of our inventions are such as to cover all practical forms for the specified uses. Therefore the change of design would not avoid infringement.

# ANNOUNCEMENT

It is with pride that we present this enlarged, complete, and up-to-date catalog No. 38, showing a wide variety of new designs in Faries Patented Adjustable Electric Brackets—Adjustable and Flexible Arm Desk and Floor Portables—an extended line of Verdelite Portables with glass and metal shades—Therapeutic Lamps—Ultra Violet Sun Lamps—a diversified line of other portables including Bed, Picture, Piano and Pulpit Lamps—Metal Shades and Porcelain Enamel Reflectors—also Electric Fixtures, Brackets, Canopies, Fittings, Parts, etc.

The same **High Quality** that has made **Faries Line** recognized as the **Leader** and **Standard** in the industry since 1880, has been ardently and carefully maintained in our new and enlarged line.

All portables, shown in the catalog, have heavily felted bases so they will not scratch or mar finished surfaces.

All Faries Portables and Faries Fixtures are approved. Only Underwriters Approved cord, wire, sockets and attachment plugs are used in every product in the Faries line. It is our policy and purpose to give greater value, by offering at standard prices, merchandise that is made stronger, more practical and efficient, more durable and better finished than other lines.

To assure you of complete delivery in first-class condition, we pack our merchandise in cartons padded with excelsior, where it is practical to do so, and in many instances in reinforced crates. You are doubly sure of receiving Faries shipments in good condition as we pack better.

We are continually adding to our line and if you do not find what you want in this catalog, write us describing it, as we may have the goods in stock or be in a position to make it.

**PRICES**—All former prices or quotations are hereby superseded for goods shown in this catalog. Prices are given in connection with each cut, but do not include shades, bulbs, shade holders, sockets or wiring, unless specified. Where socket covers are shown, price includes same. Discount to the trade will be quoted upon application. Prices are subject to change without notice. Our minimum charge is \$1.00.

**TERMS**—Net thirty days from date of invoice, or 2% for cash within ten days.

**REFERENCES**—Unless you know yourselves to be well reported by the commercial agencies, money should accompany order, or satisfactory references be furnished.

**C. O. D.**—We will send goods C. O. D., but as a guarantee of good faith the parties so ordering will be required to remit with order an amount sufficient to pay transportation charges both ways, which will be deducted from the bill.

**LENGTH**—Length is given in connection with each cut and upon chandeliers, means to the lowest point of the fixture, not including glassware. Extra length will be furnished at prices specified throughout the catalog.

**SPREAD**—Spread is given in connection with each cut. For electric fixtures, from end of socket to end of socket, ceiling fixtures width of spinning. Length of adjustable brackets is measured to end of nozzle.

**HOW TO ORDER**—Order by catalog number and name of goods, stating number of lights and finish desired. Please do not use the words, "Same as last". State whether goods are to be sent by freight or express. Unless preference is given, we will ship according to our best judgment.

All portables listed in this catalog will be shipped wired with socket, plug and shades unless otherwise specified.

**FINISH**—When ordering state finish desired. If no finish is specified, we will always send first finish listed. We will furnish Black Iron, White Enamel, Ivory, Brown Tone, Jap Gold, French Gray at the same price as Brushed Brass. Nickel Plate, Flemish Brass,

Brushed Copper, Statuary Bronze, White Enamel and Colors, Old Ivory, Ivory and Colors, Verde Antique, Pewter and Gold, Statuary Bronze and Gold, at 10% above cost of Brushed Brass, except where otherwise specified. Antique Silver, and Satin Silver at 20% above cost of Brushed Brass. Chromium and other special finishes can be supplied at reasonable prices which will be quoted upon receipt of complete specifications.

**OUR RESPONSIBILITY**—We use every care in packing our goods, and our responsibility ceases when we have obtained carrier's receipt in good order. When goods are received in bad order, we suggest calling the attention of the carrier's agent, securing the endorsement of the fact on your bill and filing your claim with the carrier's agent at once. If there are any errors, report them to us fully at once, referring to the date of shipment and invoice and we will correct at once or advise you what to do. **Goods returned to us without our instructions will not be accepted.**

**PACKING AND CARTAGE**—Our charge for boxing will always be reasonable, charging only enough to cover cost of material used in putting up goods. **For Parcel Post there is an extra charge for special packing. No charge for cartage.**

**BRASS, BRONZE, AND ALUMINUM CASTINGS**—We are furnishing chandelier and fixture manufacturers in all parts of the country castings from their own patterns, as well as from a very large line of our own. If you are using castings, it will pay you to write us. We can furnish you the right kind at reasonable prices. We also make for the lighting fixture trade a complete line of brass fittings, spinnings, stampings, and automatic turnings.

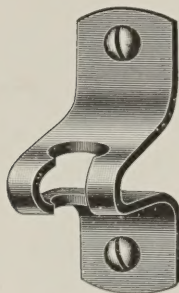

**FABRICATED PRODUCTS** for other industries—Brass screw machine work, stampings, and deep drawn work, spinnings in both ferrous and non-ferrous metals; brass, bronze, aluminum, and nickel silver castings. We can furnish fabricated parts only, or complete assemblies, finished and packed in your cartons, to your specifications.

**SPECIAL ORDERS**—Special order work not subject to cancellation.

## Adjustable Brackets in Actual Use

### BRING OUT THE DETAILS!

Then accurate and rapid work is possible—your skilled workmen won't waste their time and your money "fussing" over fine work and trying to get adjustments in dim light or shadow.

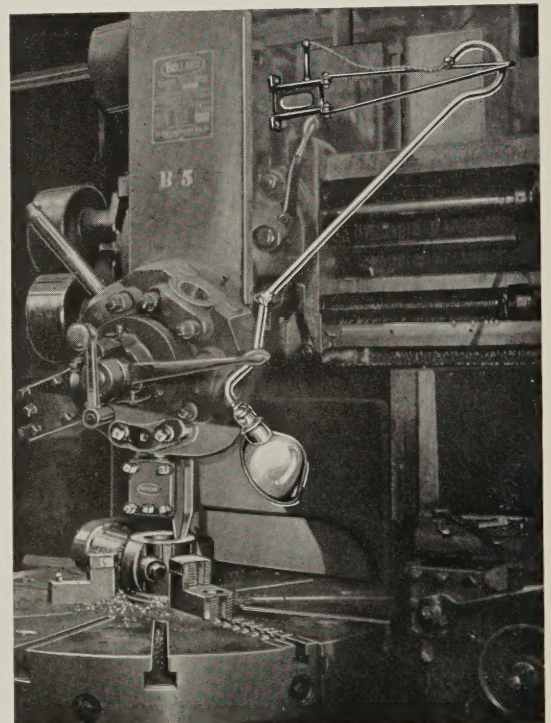

These Brackets "stay put" just where needed—keep the glare out of the workmen's eyes and concentrate the rays directly on the work. "Spot lighting" the detail work is the method that is cutting costs in hundreds of factories.

### DIFFICULT LIGHTING PROBLEMS

Vertical Turret Lathes  
Punch Presses  
Milling Machines  
Drill Presses, etc.

These machines present some of the most difficult of Factory Lighting Problems.

Faries Factory Lighting Equipment solves each of these problems.

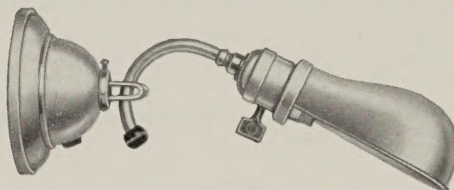

Faries No. 5 Bracket solves another difficulty.

## Faries Safety Hangers

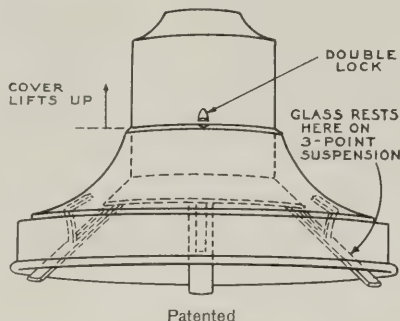

Made of No. 22 B and S Ga. Brass  
The New Screwless Holder Offering a Superior Method for Supporting Glassware

### Simple and Durable

A Positive, Simple, Safety Holder, Free from Screws, Clamps, Straps or Springs. Nothing to Break or Get Out of Order. Made of Heavy Quality Material Throughout. No Adjustments Necessary. Fits All Glassware.

### Double Safe

Supports Resting on Inside of Bowl Make It Impossible to Become Detached from Holder Until Cover Is Released by One Hand and Glassware Tilted to Correct Position with Other. You Can Then Use Both Hands in Removing Glass.

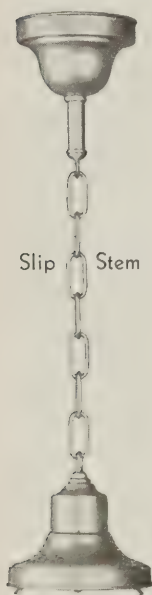

### Glass Hangs Straight

Suspension Bar Rests, Spaced Equidistant at Three Points, Equalize the Weight and Balance of Glassware. It Automatically Hangs Straight. Slight Spring Tension by Cover Eliminates Rattle, Allows for Expansion by Heat, and Makes All Types of Glass Fit Snug.

### Beautiful Designs

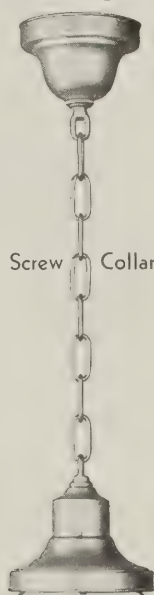

These Fixtures Fill the Need for Beauty of Design and Finish in Safety Hangers. They Are Straight Enough in Lines for Truly Modernistic Glass, Yet Curved Sufficiently to Look Well on Standard Commercial Bowls. Finished in Beautiful Electroplated Statuary Bronze.
